Special ^{nexqo} Printing Mark

Blank RFID Ticket Printing mark:

It is necessary and effective to do black marks, sensing slots or notches on fan folded

tickets or roll tickets when printing blank tickets where there is no contrast between a ticket and another one. Nexqo does offer printing mark on clear tickets to provide a substantial print area and smart contrast to divide your fan folded tickets or roll tickets without liner marks or holes. We can add this to any clear ticket material.

RFID Tickets^{nexqo} with Roll or Fan Folded

Nexqo supply Fan Fold Tickets or Tickets on Continuous Rolls of Ticket Paper for a wide variety of uses.

High Quality^{nexqo} Printing with Thermal Printer

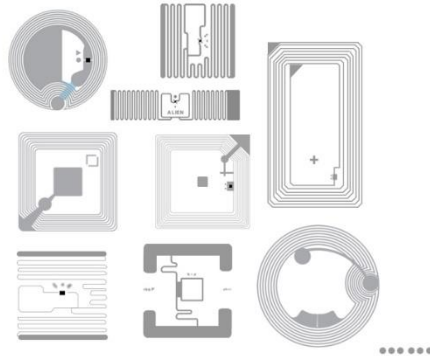

Nexqo RFID Ticket is compatible with most mayor Thermal Ticket Printers, including Boca, Practical Automation, Citizen, Datamax, Datamax-O'Neil, Intermec, Kroy, Sato, Star Micronics, Toshiba TEC, TSC, Wasp, Zebra printers and also other makes of printers. Their easily customize any ticket to fit your printer's needs.
